EDUCATION

Independent University, Bangladesh

Bachelor of Science in Computer Science, Minor in Communications

Dhaka, Bangladesh

Jan 2022 – May 2026

- **Relevant Coursework:** Data Structure; Algorithms; Database Management; Web Development; Interactive Media
- **Activities:** Winner, Algorithm Project Showcase – TechFest; Paper Presenter, IEEE ICOIICS 2025, IEEE ICSADL 2026

Mastermind International School - Chittagong

CAIE A Levels

Dhaka, Bangladesh

June 2021

- **Academics:** Physics; Mathematics

CAIE GCE O Levels

June 2017

- **Academics:** English Language B; Mathematics; Bengali; Physics; Chemistry; Further Pure Mathematics

LEADERSHIP AND PROJECTS

ProctorLess – Privacy-First Online Assessment Platform

Tech: Next.js, TypeScript, Supabase, PostgreSQL, Tailwind CSS

- Built full-stack app for secure exams without surveillance. Added role-based dashboards for students, professors, admins.
- Created seating-aware question distribution to curb cheating. Added AI grading, real-time monitoring, and Chrome extension for session integrity detection

GitHub: <https://github.com/Taif6612/proctorless-app>

Senior Mode – Accessibility Chrome Extension

Tech: TypeScript, React, WXT, Vite

- Built extension for better web access for elderly and visually impaired. Added high-contrast mode, text scaling, link highlighting.
- Used DOM manipulation to override site styles. Added unit and end-to-end testing for reliability. GitHub:

<https://github.com/Taif6612/senior-mode-extension>

PUBLICATION

Drought-Sensitive Machine Learning for Robust Water-Level Forecasting in the Chitra and Nabaganga River Basins
— **IEEE ICSADL 2026**

Proposed a drought-aware multi-river machine learning framework using ensemble models to capture complex hydro-climatic relationships.

Machine Learning Modeling for Predicting Water Level in the Nabaganga River, Bangladesh — **IEEE ICOIICS 2025**

Compared ML models (CatBoost, XGBoost, Random Forest, LightGBM, MLP); CatBoost achieved highest performance ($R^2 = 0.998$).

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Next.js, Tailwind CSS; **Backend:** Node.js, PHP, FastAPI; **Databases:** MySQL, PostgreSQL (Supabase); **DevOps & Tools:** Git, GitHub, GitHub Actions (CI/CD); **UX & Accessibility:** User-Centered Design, Accessibility Principles; **AI/ML (Supportive):** Python, scikit-learn, XGBoost
